

## Bethany's PLN

This is my stage 1 PLN. At this stage, I spend a lot of time going out to individual sites to gather information and connect with others with similar interests. Many times, my visits to organizational web sites, online journal sites, blogs, and wikis are prompted by alerts I receive in my email or via messages in my Twitter stream. However I do spend quite a bit of time simply visiting and browsing just to browse and to see if I stumble across anything interesting. When I do, I contribute that info to my network for those who are following me or who have friended me. My PLN is quite focused on the ideas/information/people in the educational technology and online learning spheres

	I visit organization sites to learn what they're doing and connect with individual members
